The NGO Objectif Sciences International (OSI) has an Internal Projects Fund that [finances projects conducted within the NGO](#).

Mr. Thomas EGLI, founder of OSI in 1992, has been tasked with creating, in the coming years, a second Projects Fund with OSI's participation, dedicated to projects external to OSI.

The goal is to finance projects conducted either jointly or independently of OSI, with other NGOs, governments, UN agencies, or the UN itself, in areas of [Sustainable Development](#).

Any person or organization interested in contributing to the organization of this Fund is encouraged to contact Mr. EGLI directly at [thomas.egli@objectif-sciences.com](mailto:thomas.egli@objectif-sciences.com).
