**Join the team that welcomes and advises future volunteers for our Scientific Travel programs.**

**A seasonal position compatible with your scientific travel program dates.**

- You are a scientific educator with the NGO, supervising at various times throughout the year,
- You have already completed the NGO's Level 1 training (St1).

## Increase your working hours!

Join the team of NGO representatives who provide information to:

- parents who want to send their children on scientific travel programs,
- adults interested in engaging in solidarity-based science holidays.

We are seeking OSI educators to support our representative colleagues during peak call periods, so we can provide detailed and high-quality responses to everyone who contacts us.

Your field experience and ongoing involvement with the NGO will allow you to answer all questions from those who call us.

**This position can be offered to you during times of the year compatible with the dates when you supervise OSI's citizen science travel programs.**

During your mission period with our representatives, you will need to work in person at our Bordeaux office.

Assignments may last 1 to 4 months each year between March and June.

If you are interested, please send us an email at [contact.vacances-scientifiques.com](mailto:contact.vacances-scientifiques.com)

See you soon!
